Independent Auditors' Report

The Board of Trustees Employees' Retirement System of Georgia:

We have audited the accompanying financial statements of the Employees' Retirement System of Georgia (the System), a component unit of the state of Georgia, as of and for the year ended June 30, 2010 as listed in the table of contents. These financial statements are the responsibility of the System's management. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year summarized comparative information has been derived from the System's June 30, 2009 financial statements and, in our report dated September 30, 2009, we expressed an unqualified opinion on those financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the System's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the System's net assets as of June 30, 2010 and the changes in net assets for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 28, 2010 on our consideration of the System's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis, the schedules of funding progress, and schedules of employer contributions on pages 3 through 9 and pages 38 through 39, respectively, are not a required part of the basic financial statements but are supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information, and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information included in the administrative expenses schedule is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects, in relation to the basic financial statements taken as a whole.

Management's Discussion and Analysis (Unaudited)

June 30, 2010

This section provides a discussion and analysis of the financial performance of the Employees' Retirement System of Georgia (the System) for the year ended June 30, 2010. The discussion and analysis of the System's financial performance is within the context of the accompanying basic financial statements, notes to the financial statements, required supplementary schedules, and additional information following this section.

The System is responsible for administering a cost-sharing, multiple-employer defined benefit pension plan for various employer agencies of Georgia, along with eight other defined benefit pension plans and three defined contribution plans.

The defined benefit pension plans include:

- Employees' Retirement System (ERS)
- Public School Employees Retirement System (PSERS)
- Legislative Retirement System (LRS)
- Georgia Judicial Retirement System (GJRS)
- Georgia Military Pension Fund (GMPF)
- State Employees' Assurance Department Active Members Trust Fund (SEAD-Active)
- State Employees' Assurance Department Retired and Vested Inactive Members Trust Fund (SEAD-OPEB)
- Superior Court Judges Retirement Fund (SCJRF)
- District Attorneys Retirement Fund (DARF)

The defined contribution retirement plans include:

- Georgia Defined Contribution Plan (GDCP)
- 401(k) Deferred Compensation Plan (401(k))
- 457 Deferred Compensation Plan (457)

Financial Highlights

The following highlights are discussed in more detail later in this analysis:

- The net assets of the System increased by \$521 million, or 4.0%, from \$13.2 billion at June 30, 2009 to \$13.7 billion at June 30, 2010. The increase was primarily due to the increase in the bond and equities markets in 2010.
- For the year ended June 30, 2010, the total additions to net assets were an increase of \$1.8 billion compared to a decrease of \$1.7 billion for the year ended June 30, 2009. For the year ended June 30, 2010, the additions consisted of employer and member contributions totaling \$410 million, insurance premiums of \$7.6 million, net investment income of \$1.4 billion, participant fees of \$0.9 million, and other income of

\$0.3 million. For the year ended June 30, 2009, the additions consisted of employer and member contributions totaling \$422 million, insurance premiums of \$8.4 million, net investment loss of \$2.1 billion, participant fees of \$1.4 million, and other income of \$0.9 million.

- Net investment income of \$1.4 billion in 2010 (comprised of interest and dividend income, the change in fair value of investments, and other, reduced by investment expenses) represents a \$3.5 billion increase, compared to the net investment loss of \$2.1 billion for the year ended June 30, 2009. The net investment income is due primarily to the increase in the bond and equities markets in 2010.
- The total deductions were \$1.3 billion and \$1.3 billion for the years ended June 30, 2009 and 2010, respectively. For the year ended June 30, 2010, the deductions consisted of benefit payments of \$1.3 billion, refunds of \$18 million, death benefits of \$28 million, and administrative expenses of \$21 million. For the year ended June 30, 2009, the deductions consisted of benefit payments of \$1.2 billion, refunds of \$18 million, death benefits of \$26 million, and administrative expenses of \$21 million.
- Benefit payments paid to retirees and beneficiaries increased by \$18.1 million, or 1.5% from \$1.24 billion in 2009 to \$1.26 billion in 2010. This increase was the result of increases in the number of retirees and beneficiaries receiving benefits across all plans.

Overview of the Financial Statements

The basic financial statements include (1) the combined statement of net assets and changes in net assets, (2) the combining statements of net assets and changes in net assets, and (3) notes to the financial statements. The System also includes in this report additional information to supplement the financial statements.

In addition, the System presents two types of required supplementary schedules, which provide historical trend information about the plans' funding. The two types of schedules include (1) a schedule of funding progress and (2) a schedule of employer contributions.

The System prepares its financial statements on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles. These statements provide information about the System's overall financial status.

Description of the Financial Statements

The Combined Statement of Net Assets is the statement of financial position presenting information that includes all of the System's assets and liabilities, with the balance representing the Net Assets Held in Trust for Pension Benefits. The investments of the System in this statement are presented at fair value. This statement is presented on page 10.

Management's Discussion and Analysis (Unaudited)

June 30, 2010

The *Combined Statement of Changes in Net Assets* reports how the System's net assets changed during the fiscal year. The additions and deductions to net assets are summarized in this statement. The additions include contributions to the retirement plans from employers and members, group life insurance premiums, participant fees, and net investment income, which includes interest and dividends and the net increase in the fair value of investments. The deductions include benefit payments, life insurance death benefit payments, refunds of member contributions and interest, and administrative expenses. This statement is presented on page 11.

The Combining Statement of Net Assets and the Combining Statement of Changes in Net Assets present the financial position and change in financial position for each of the funds administered by the System, including the Pooled Investment Fund that holds and invests funds from each of the participating plans and funds. These statements begin on page 12.

Notes to the Financial Statements are presented to provide the information necessary for a full understanding of the financial statements. The notes to the financial statements begin on page 16.

There are two *Required Supplementary Schedules* included in this report. These required schedules are applicable to five of the defined benefit plans: ERS, PSERS, LRS, GJRS, and GMPF. The *Schedule of Funding Progress* presents historical trend information about the actuarially determined funded status of the plans from a long-term, ongoing plan perspective, and the progress made in accumulating sufficient assets to fund benefit payments as they become due. The *Schedule of Employer Contributions* presents historical trend information about the annual required contributions of employers and percentage of such contributions in relation to actuarially determined requirements for the years presented. The required supplementary schedules begin on page 38.

Notes to Required Supplementary Schedules are presented to provide the information necessary for a full understanding of the supplementary schedules. The notes to required supplementary schedules begin on page 40.

Additional information is presented, beginning on page 42. This section includes the *Administrative Expenses Schedule*. The *Administrative Expenses Schedule* presents the expenses incurred in the administration of these plans and funds, and the contributions from each plan and fund to provide for these expenses.

Additions – The System accumulates resources needed to fund benefit payments through contributions and returns on invested funds. In fiscal year 2010, total contributions decreased 2.7%, reflecting a contribution percentage that remained unchanged along with a decrease in the number of active contributing members and a reduction in contributions receivable. Employer contributions to ERS for a group of local tax commissioners are statutorily paid by the Department of Revenue (DOR) with state appropriations. These DOR contributions were not appropriated and will not be received in fiscal year 2011 and accordingly at June 30, 2010 contributions receivable was reduced \$5.7 million. Net investment income increased by \$3.5 billion, due to the increase in the bond and equities markets in 2010.

Deductions – For fiscal year 2010, total deductions increased 1.5%, primarily because of a 1.5% increase in benefit payments. This was due to an increase of approximately 3% in the number of retirees receiving benefit payments across all defined benefit plans. Refunds decreased 0.1%, which was primarily due to a decrease in the number of refunds processed during 2010. Death benefits increased 7.5%, which was primarily due to an increase in the number of death claims processed during 2010. Administrative expenses increased 0.6% over the prior year, primarily due to increases in the employer portion of health insurance and contractual services.

Funding Status

The schedules of funding progress and employer contributions provide information regarding how the plans are performing and funded from an actuarial perspective. The information is based upon actuarial valuations conducted by certified actuaries. The funding ratio, which is presented on the schedule of funding progress, indicates the ratio of the actuarial value of assets and the actuarial accrued liabilities. The higher this ratio, the better position the System is in with regards to its funding requirements. The June 30, 2009 and 2008 actuarial valuations, the latest valuations available, indicate the actuarial value of assets and funding ratios for the five applicable defined benefit retirement plans were as follows:

			alue of plan sets	Funding	g ratio	
	_	June 30, 2009	June 30, June 30, June 30, June 30, 2008 2009 200			
	_	(In tho	usands)			
ERS	\$	13,613,606	14,017,346	85.7%	89.4%	
PSERS		769,618	791,855	93.5	102.7	
LRS		30,303	30,706	128.8	125.6	
GJRS		317,624	313,315	112.4	116.7	
GMPF		6,413	5,269	30.5	27.6	

In management's opinion, the System continues to operate on an actuarially sound basis, as evidenced by the funding ratios. A funding ratio over 100% indicates the plans, from an actuarial perspective, have more assets available than will be necessary to satisfy the obligations of the plans. GMPF is a relatively new plan that was established in 2002 and is being increasingly funded over time in accordance with contribution amounts recommended by the actuary.

Notes to Financial Statements
June 30, 2010

(1) General

The accompanying basic financial statements of the Employees' Retirement System of Georgia, including all plans and funds administered by the Employees' Retirement System of Georgia (collectively, the System), is comprised of the Employees' Retirement System of Georgia (ERS), Public School Employees Retirement System (PSERS), Legislative Retirement System (LRS), Georgia Judicial Retirement System (GJRS), Georgia Military Pension Fund (GMPF), State Employees' Assurance Department Active Members Trust Fund (SEAD-Active), State Employees' Assurance Department Retired and Vested Inactive Members Trust Fund (SEAD-OPEB), Superior Court Judges Retirement Fund (SCJRF), District Attorneys Retirement Fund (DARF), Georgia Defined Contribution Plan (GDCP), 401(k) Deferred Compensation Plan (401(k) Plan), and the 457 Deferred Compensation Plan (457 Plan). All significant accounts and transactions among the various systems, departments, and funds have been eliminated.

In evaluating how to define the System for financial reporting purposes, the management of the System has considered all potential component units. The decision to include a potential component unit in the reporting entity is made by applying the criteria set forth by Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, as amended by GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units*. Based on these criteria, the System has not included any other entities in its reporting entity.

Although the System is a component unit of the State of Georgia's financial reporting entity, it is accountable for its own fiscal matters and presentation of its separate financial statements. The Board of Trustees, comprised of active and retired members, ex-officio state employees, and appointees by the Governor, are ultimately responsible for the administration of the System.

(2) Authorizing Legislation and Plan Descriptions

Each plan and fund, including benefit and contribution provisions, was established and can be amended by state law. The following summarizes authorizing legislation and the plan description of each retirement fund:

(a) ERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly during the 1949 Legislative Session for the purpose of providing retirement allowances for employees of the State of Georgia and its political subdivisions. ERS is directed by a Board of Trustees and has the powers and privileges of a corporation.

Membership

As of June 30, 2010, participation in ERS is as follows:

Retirees and beneficiaries currently receiving benefits	38,518
Terminated employees entitled to benefits but not yet receiving benefits	68,290
Active plan members	68,567
Total	175,375
Employers	741

Benefits

Unless the employee elects otherwise, an employee who currently maintains membership with ERS based upon state employment that started prior to July 1, 1982 is an "old plan" member subject to the plan provisions in effect prior to July 1, 1982. Members hired on or after July 1, 1982 but prior to January 1, 2009 are "new plan" members, subject to the modified plan provisions. Effective January 1, 2009, newly hired state employees, as well as rehired state employees who did not maintain eligibility for the "old" or "new" plan, are members of the Georgia State Employees' Pension and Savings Plan (GSEPS). ERS members hired prior to January 1, 2009 also have the option to irrevocably change their membership to the GSEPS plan.

Under the old plan, the new plan, and GSEPS, a member may retire and receive normal retirement benefits after completion of 10 years of creditable service and attainment of age 60 or 30 years of creditable service regardless of age. Additionally, there are some provisions allowing for early retirement after 25 years of creditable service for members under age 60.

Retirement benefits paid to members are based upon the monthly average of the member's highest 24 consecutive calendar months, multiplied by the number of years of creditable service, multiplied by the applicable benefit factor. Annually, postretirement cost-of-living adjustments may also be made to members' benefits, provided the members were hired prior to July 1, 2009. The normal retirement pension is payable monthly for life; however, options are available for distribution of the member's monthly pension, at reduced rates, to a designated beneficiary upon the member's death. Death and disability benefits are also available through ERS.

Contributions and Vesting

Member contributions under the old plan are 4% of annual compensation, up to \$4,200 plus 6% of annual compensation in excess of \$4,200. Under the old plan, the state pays member contributions in excess of 1.25% of annual compensation. Under the old plan, these state contributions are included in the members' accounts for refund purposes and are used in the computation of the members' earnable compensation for the purpose of computing retirement benefits. Member contributions under the new plan and GSEPS are 1.25% of annual compensation. The state is required to contribute at a specified percentage of active member payrolls, determined annually by actuarial

Notes to Financial Statements
June 30, 2010

valuation. The state contributions are not at any time refundable to the member or his/her beneficiary.

Employer contributions required for fiscal year 2010 were based on the June 30, 2007 actuarial valuation for the old plan and new plans and were set by the Board of Trustees on September 18, 2008 for GSEPS as follows:

	Old plan	New plan	GSEPS
Employer:			
Normal	2.08%	6.83%	2.96%
Employer paid for member	4.75	_	_
Accrued liability	3.58	3.58	3.58
Total	10.41%	10.41%	6.54%

Members become vested after ten years of membership service. Upon termination of employment, member contributions with accumulated interest are refundable upon request by the member. However, if an otherwise vested member terminates and withdraws his/her member contributions, the member forfeits all rights to retirement benefits.

The employer contributions are projected to liquidate the unfunded actuarial accrued liability within 30 years, based upon the actuarial valuation at June 30, 2009, on the assumption that the total payroll of active members will increase by 3.75% each year.

On November 20, 1997, the ERS Board of Trustees created the Supplemental Retirement Benefit Plan of ERS (SRBP). SRBP was established as a qualified governmental excess benefit plan in accordance with Section 415 of the Internal Revenue Code (IRC §415) as a portion of ERS. The purpose of the SRBP is to provide retirement benefits to employees covered by ERS whose benefits are otherwise limited by IRC §415.

Beginning January 1, 1998, all members and retired former members in ERS are eligible to participate in this plan whenever their benefits under ERS exceed the limitation on benefits imposed by IRC §415.

There were 124 members eligible to participate in this portion of ERS for the year ended June 30, 2010. Employer contributions of \$1,870,000 and benefit payments of \$1,866,177 under the SRBP are included in the combined statements of changes in net assets for the year ended June 30, 2010. Cash of \$12,750 under the SRBP is included in the combined statements of net assets as of June 30, 2010.

(b) PSERS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly in 1969 for the purpose of providing retirement allowances for public school employees who are not eligible for membership in the Teachers Retirement System of Georgia. The ERS Board of Trustees, plus two additional trustees, administers PSERS.

Membership

As of June 30, 2010, participation in PSERS is as follows:

Retirees and beneficiaries currently receiving benefits	13,995
Terminated employees entitled to benefits but not yet receiving benefits	68,951
Active plan members	39,962
Total	122,908
Employers	195

Benefits

A member may retire and elect to receive normal monthly retirement benefits after completion of ten years of creditable service and attainment of age 65. A member may choose to receive reduced benefits after age 60 and upon completion of ten years of service.

Upon retirement, the member will receive a monthly benefit of \$14.75, multiplied by the number of years of creditable service. Death and disability benefits are also available through PSERS. Additionally, PSERS makes periodic cost-of-living adjustments to the monthly benefits.

Contributions and Vesting

Members contribute \$4 per month for nine months each fiscal year. The State of Georgia, although not the employer of PSERS members, is required by statute to make employer contributions actuarially determined and approved and certified by the PSERS Board of Trustees.

Employer contributions required for the year ended June 30, 2010 were \$141.46 per active member and were based on the June 30, 2007 actuarial valuation.

Members become vested after ten years of creditable service. Upon termination of employment, member contributions with accumulated interest are refundable upon request by the member. However, if an otherwise vested member terminates and withdraws his/her member contribution, the member forfeits all rights to retirement benefits.

(c) LRS is a cost-sharing multiple-employer defined benefit plan established by the Georgia General Assembly in 1979 for the purpose of providing retirement allowances for all members of the Georgia General Assembly. LRS is administered by the ERS Board of Trustees.

Membership

As of June 30, 2010, participation in LRS is as follows:

Retirees and beneficiaries currently receiving benefits	235
Terminated employees entitled to benefits but not yet receiving benefits	124
Active plan members	216
Total	575
Employers	1

Benefits

A member's normal retirement is after eight years of creditable service and attainment of age 65, or eight years of membership service (four legislative terms) and attainment of age 62. A member may retire early and elect to receive a monthly retirement benefit after completion of eight years of membership service and attainment of age 60; however, the retirement benefit is reduced by 5% for each year the member is under age 62.

Upon retirement, the member will receive a monthly service retirement allowance of \$36, multiplied by the number of years of creditable service, reduced by age reduction factors, if applicable. Death benefits are also available through the plan.

Contributions and Vesting

Member contributions are 8.5% of annual salary. The state pays member contributions in excess of 4.75% of annual compensation. Employer contributions are actuarially determined and approved and certified by the ERS Board of Trustees.

There were no employer contributions required for the year ended June 30, 2010 based on the June 30, 2007 actuarial valuation.

Members become vested after eight years of creditable service. Upon termination of employment, member contributions with accumulated interest are refundable upon request by the member.

However, if an otherwise vested member terminates and withdraws his/her member contributions, the member forfeits all rights to retirement benefits.

(d) The GJRS is a system created to serve the members and beneficiaries of the Trial Judges and Solicitors Retirement Fund, the Superior Court Judges Retirement System, and the District Attorneys Retirement System (collectively, the Predecessor Retirement Systems). As of June 30, 1998, any person who was an active, inactive, or retired member or beneficiary of the Predecessor Retirement Systems was transferred to GJRS in the same status effective July 1, 1998. All assets of the Predecessor Retirement Systems were transferred to GJRS as of July 1, 1998. The ERS Board of Trustees and three additional trustees administer GJRS.

GJRS is a cost-sharing multiple-employer defined benefit pension plan established by the Georgia General Assembly for the purpose of providing retirement allowances for judges and solicitors generals of the state courts and juvenile court judges in Georgia, and their survivors and other beneficiaries, superior court judges of the state of Georgia, and district attorneys of the state of Georgia.

Membership

As of June 30, 2010, participation in GJRS is as follows:

Retirees and beneficiaries currently receiving benefits	206
Terminated employees entitled to benefits but not yet receiving benefits	55
Active plan members	495
Total	756
Employers	96

Benefits

The normal retirement for GJRS is age 60, with 16 years of creditable service; however, a member may retire at age 60 with a minimum of 10 years of creditable service.

Annual retirement benefits paid to members are computed as 66\%3\% of state paid salary at retirement for district attorneys and superior court judges and 66\%3\% of the average over 24 consecutive months for trial judges and solicitors, plus 1\% for each year of credited service over 16 years, not to exceed 24 years. Early retirement benefits paid to members are computed as the pro rata portion of the normal retirement benefit, based on service not to exceed 16 years. Death, disability, and spousal benefits are also available.

Contributions and Vesting

Members are required to contribute 7.5% of their annual salary plus an additional 2.5% of their annual salary if spousal benefit is elected. Employer contributions are actuarially determined and approved and certified by the GJRS Board of Trustees.

Total	3.85%

Members become vested after ten years of creditable service. Upon termination of employment, member contributions with accumulated interest are refundable upon request by the member. However, if an otherwise vested member terminates and withdraws his/her member contributions, the member forfeits all rights to retirement benefits.

The employer contributions are projected to liquidate the actuarial accrued funding excess within 10 years, based upon the actuarial valuation at June 30, 2009, assuming that the amount of accrued liability payment increases 3.75% each year.

(e) The GMPF is a single-employer defined benefit pension plan established on July 1, 2002 by the Georgia General Assembly for the purpose of providing retirement allowances and other benefits for members of the Georgia National Guard (National Guard). The ERS Board of Trustees administers the GMPF.

Membership

As of June 30, 2010, GMPF had 480 retirees and beneficiaries currently receiving benefits. Active and inactive plan member information is maintained by one employer, the Georgia Department of Defense.

Benefits

A member becomes eligible for benefits upon attainment of age 60, with 20 or more years of creditable service (including at least 15 years of service as a member of the National Guard), having served at least 10 consecutive years as a member of the National Guard immediately prior to discharge, and having received an honorable discharge from the National Guard.

The retirement allowance is payable for life in the amount of \$50 per month, plus \$5 per month for each year of creditable service in excess of 20 years. The maximum benefit is \$100 per month.

Contributions and Vesting

Employer contributions are actuarially determined and approved and certified by the ERS Board of Trustees. There are no member contributions required.

Notes to Financial Statements
June 30, 2010

Employer contributions required for the year ended June 30, 2010 were \$119.30 per active member and were based on the June 30, 2007 actuarial valuation.

A member becomes vested after 20 years of creditable service (including at least 15 years of service as a member of the National Guard), having served at least 10 consecutive years as a member of the National Guard immediately prior to discharge, and having received an honorable discharge from the National Guard.

The employer contributions are projected to liquidate the unfunded actuarial accrued liability within 20 years, based upon the actuarial valuation at June 30, 2009.

(f) SEAD-Active was created in 2007 by the Georgia General Assembly to amend Title 47 of the Official Code of Georgia Annotated, relating to retirement, so as to establish a fund for the provision of term life insurance to active members of ERS, LRS, GJRS, and SCJRF. Effective January 1, 2009, members of ERS under the GSEPS plan are not eligible for term life insurance. The SEAD-Active trust fund accumulates in the fund the premiums received from the aforementioned retirement systems, including interest earned on deposits and investments of such payments from active members.

Employee contribution rates of 0.05% and 0.02% of members' salaries for old plan members and new plan members, respectively, were appropriated for the fiscal year ending June 30, 2010. There were no employer contribution rates required for the fiscal year ended June 30, 2010. Old plan members were hired prior to July 1, 1982, and new plan members were hired on or after July 1, 1982, but prior to January 1, 2009.

According to the policy terms covering the lives of members, insurance coverage is provided on a monthly, renewable term basis, and no return premiums or cash value are earned. The net assets represent the excess accumulation of investment income and premiums over benefit payments and expenses and are held as a reserve for payment of death benefits under existing policies.

(g) SEAD-OPEB was created in 2007 by the Georgia General Assembly to amend Title 47 of the Official Code of Georgia Annotated, relating to retirement, so as to establish a fund for the provision of term life insurance to retired and vested inactive members of ERS, LRS, GJRS, and SCJRF. The SEAD-OPEB trust fund accumulates in the fund the premiums received from the aforementioned retirement systems, including interest earned on deposits and investments of such payments from retired and vested inactive members.

Employee contribution rates of 0.45% and 0.23% of members' salaries for old plan members and new plan members, respectively, were appropriated for the fiscal year ending June 30, 2010. There were no employer contribution rates required for the fiscal year ended June 30, 2010. Old plan members were hired prior to July 1, 1982, and new plan members were hired on or after July 1, 1982.

(h) SCJRF is a single-employer defined benefit pension plan established by the Georgia General Assembly in 1945 for the purpose of providing retirement benefits to the superior court judges of the state of Georgia. SCJRF is directed by its own Board of Trustees. The Boards of Trustees for ERS and SCJRF entered into a contract for ERS to administer the plan effective July 1, 1995.

Membership

As of June 30, 2010, SCJRF had 27 retirees and beneficiaries currently receiving benefits and no active members. No new members are allowed into SCJRF.

Benefits

The normal retirement for SCJRF is age 68, with 19 years of creditable service, with a benefit of two-thirds the salary paid to superior court judges. A member may also retire at age 65, with a minimum of 10 years of creditable service, with a benefit of one-half the salary paid to superior court judges. Death, disability, and spousal benefits are also available.

Contributions and Vesting

Employer contributions are not actuarially determined, but are provided on an as-needed basis to fund current benefits.

(i) DARF is a defined benefit pension plan established by the Georgia General Assembly in 1949 for the purpose of providing retirement benefits to the district attorneys of the state of Georgia. DARF is directed by its own Board of Trustees. The Boards of Trustees for ERS and DARF entered into a contract for ERS to administer the plan effective July 1, 1995.

Membership

As of June 30, 2010, DARF had 7 retirees and beneficiaries currently receiving benefits and no active members. No new members are allowed into DARF.

Benefits

Persons appointed as district attorney emeritus shall receive an annual benefit of \$15,000, or one-half of the state salary received by such person as a district attorney for the calendar year immediately prior to the person's retirement, whichever is greater.

Contributions and Vesting

(j) GDCP is a defined contribution plan established by the Georgia General Assembly in July 1992 for the purpose of providing retirement allowances for state employees who are not members of a public retirement or pension system and do not participate in Social Security. GDCP is administered by the ERS Board of Trustees.

Membership

As of June 30, 2010, participation in GDCP is as follows:

Retirees and beneficiaries currently receiving benefits	1
Terminated employees entitled to benefits but not yet receiving benefits	100,516
Active plan members	16,502
Total	117,019
Employers	378

Benefits

A member may retire and elect to receive periodic payments after attainment of age 65. The payments will be based upon mortality tables and interest assumptions adopted by the ERS Board of Trustees. If a terminated member has less than \$5,000 credited to his/her account, the ERS Board of Trustees has the option of requiring a lump-sum distribution to the member. Upon the death of a member, a lump-sum distribution equaling the amount credited to his/her account will be paid to the member's designated beneficiary.

Contributions

Members are required to contribute 7.5% of their annual salary. There are no employer contributions. Earnings will be credited to each member's account as adopted by the ERS Board of Trustees. Upon termination of employment, the amount of the member's account is refundable upon request by the member.

(k) The 401(k) Plan was established by the State of Georgia Employee Benefit Plan Council (the Council) in accordance with Georgia Law 1985, as amended, Official Code of Georgia, Sections 45-18-50 through 45-18-58, and Section 401(k) of the Internal Revenue Code (IRC). On October 1, 1994, activity commenced when the 401(k) Plan became available to employees of the State of Georgia Community Service Boards (CSBs). On December 1, 1998, the 401(k) Plan became available to employees of the Georgia Lottery Corporation (GLC). On July 1, 2005, the Plan became available to employees of Fayette County Board of Education; on July 1, 2006, the Plan became available to employees of Walton County Board of Education; and on January 1, 2010 the Plan became available to employees of Henry County Board of Education.

Effective July 1, 1998, the State of Georgia Employee's Deferred Compensation Group Trust (Master Trust) was formed for the State of Georgia Deferred Compensation Program to serve as the

funding medium for the 401(k) Plan. At that time, the 401(k) Plan began operating on an employee elective deferral basis for all state employees working at least 1,000 hours in a 12-month period. All assets of the 401(k) Plan are held in trust for the exclusive benefit of the participants and their beneficiaries. The assets of the 401(k) Plan and the State of Georgia Employees' Deferred Compensation 457 Plan are commingled in the Master Trust with the respective trusts owning units of the Master Trust. Participant contributions are invested according to the participant's investment election. If the participant does not make an election, investments are automatically defaulted to a Lifecycle fund based on the participant's date of birth.

Effective July 1, 2005 (HB275), ERS became the trustee of the 401(k) Plan. ING LLC and State Street Bank and Trust Company hold, administer, and invest the assets of the Master Trust.

Contributions and Vesting

Participating CSBs, the GLC and Walton and Henry County Boards of Education offer employer contributions to eligible employees of up to 7.5% of base salary (limited to a maximum of \$245,000 base salary for 2009 and 2010) as either a contribution matching employee elective contributions or an automatic contribution regardless of employee participation. As of January 1, 2009 individual participants may defer up to 80% of eligible compensation, or up to limits prescribed by the IRC (whichever is less).

Effective January 1, 2009, in accordance with O.C.G.A. 47-2-350 through 47-2-360, newly hired state employees, as well as rehired state employees who did not maintain eligibility for the ERS "old" or "new" plan, are members of the Georgia State Employees' Pension and Savings Plan (GSEPS). The GSEPS plan includes automatic enrollment in the 401(k) plan at a contribution rate of 1% of salary, along with a matching contribution from the state. The state will match 100% of the employee's initial 1% contribution. Employees can elect to contribute up to an additional 4% and the state will match 50% of the additional 4% of salary. Therefore, the state will match 3% against the employee's 5% total savings. Contributions greater than 5% do not receive any matching funds. Employees who are not participants of the GLC, CSB, or GSEPS plans do not receive any employer contributions in their 401(k) plan.

All employer contributions are subject to a vesting schedule, which determines eligibility to receive all or a portion of the employer contribution balance at the time of any distribution from the account after separation from all state service. Vesting is determined based on the following schedule:

Less than 1 year	%
1	20

4	60
5	80
6 or more years	100

For CSB/GLC participants whose services terminated prior to January 1, 2002, the following vesting schedule applies:

Less than 3 years	—%
3	20
4	40
5	60
6	80
7 or more years	100

Employee contributions and earnings thereon are 100% vested at all times. The 401(k) Plan also allows participants to roll over amounts from other qualified plans to their respective account in the 401(k) Plan on approval by the 401(k) Plan Administrator. Such rollovers are 100% vested at the time of transfer.

Distributions

The participant may receive the value of their vested accounts upon attaining age 59.5, qualifying financial hardship, or retirement or other termination of service (employer contribution balances are only eligible for distribution upon separation from service). Upon the death of a participant, his or her beneficiary shall be entitled to the vested value of his or her accounts. Distributions are made in installments or in a lump sum.

(1) The 457 Plan was established by the State Personnel Board in accordance with Georgia laws 1974, page 198 as amended, Official Code of Georgia, Sections 45-18-30 through 45-18-36, and Section 457 of the Internal Revenue Code (IRC). The 457 Plan is available to employees of the State of Georgia and county health departments and permits such employees to defer a portion of their annual salary until future years. Employee contributions and earnings thereon are 100% vested at all times.

Effective July 1, 1998, the State of Georgia Employee's Deferred Compensation Group Trust (Master Trust) was formed for the State of Georgia Deferred Compensation Program to serve as the funding medium for the 457 Plan. All assets of the 457 Plan are held in trust for the exclusive benefit

Participant contributions are invested according to the participant's investment election. If the participant does not make an election, investments are automatically defaulted to a Lifecycle fund based on the participant's date of birth.

Effective July 1, 2005 (HB275), ERS became the trustee of the 457 Plan. ING LLC and State Street Bank and Trust Company hold, administer, and invest the assets of the Master Trust.

Distributions

The balance in the employee's account in the 457 Plan is not available to the employee until termination, retirement, death, or unforeseeable emergency as defined in the 457 Plan.

(3) Significant Accounting Policies and System Asset Matters

(a) Basis of Accounting

The System's basic financial statements are prepared on the accrual basis of accounting. Contributions from the employers and members are recognized as additions in the period in which the members provide services. Retirement benefits and refund payments are recognized as deductions when due and payable.

(b) Investments

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price. Investment income is recognized as earned by the System. There are no investments in, loans to, or leases with parties related to the System.

The System utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

(c) Capital Assets

Capital assets, including software development costs, are stated at cost less accumulated depreciation. The capitalization thresholds are \$100,000 for buildings and building improvements and \$5,000 for equipment and vehicles. Depreciation on capital assets is computed using the straight-line method over estimated useful lives of five to forty years. Depreciation expense is included in administrative expenses. Maintenance and repairs are charged to administrative expenses when incurred. When assets are retired or otherwise disposed of, the costs and related accumulated depreciation are removed from the accounts, and any resulting gain or loss is reflected in the statements of changes in net assets in the period of disposal.

(A Component Unit of the State of Georgia)

Notes to Financial Statements
June 30, 2010

(d) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets and changes therein. Actual results could differ from those estimates.

(4) Investment Program

The System maintains sufficient cash to meet its immediate liquidity needs. Cash not immediately needed is invested in either short-term or long-term investment securities as directed by the Board of Trustees. All investments are held by agent custodial banks in the name of the System.

Cash

Cash balances are fully insured through the Federal Deposit Insurance Corporation, an agency of the U.S. Government. Fiduciary accounts, such as those of the System, are granted \$250,000 of insurance coverage per participant in the System. Temporary cash on hand not committed for a specific purpose is invested overnight.

Investments

State statutes and the System's investment policy authorize the System to invest in a variety of short-term and long-term securities as follows:

(a) Short-Term

Short-term investments are authorized in the following instruments:

- Repurchase and reverse repurchase agreements, whereby the System and a broker exchange cash for direct obligations of the U.S. Government or obligations unconditionally guaranteed by agencies of the U.S. Government or U.S. corporations. The System or broker promises to repay the cash received, plus interest, at a specific date in the future in exchange for the same securities. The System held repurchase agreements of \$377,116,000 at June 30, 2010.
- U.S. Treasury obligations.

Other short-term securities authorized, but not currently used, are as follows:

- Commercial paper, with a maturity of 180 days or less. Commercial paper is an unsecured promissory note issued primarily by corporations for a specific amount and maturing on a specific day. The System considers for investment only commercial paper of the highest quality, rated P-l and/or A-l by national credit rating agencies.
- Master notes, an overnight security administered by a custodian bank and an obligation of a corporation whose commercial paper is rated P-l and/or A-l by national credit rating agencies.

(Including All Plans and Funds Administered by the Employees' Retirement System of Georgia) (A Component Unit of the State of Georgia)

Notes to Financial Statements
June 30, 2010

Investments in commercial paper or master notes are limited to no more than \$500 million in any one name.

(b) Long-Term

Fixed income investments are authorized in the following instruments:

- U.S. and foreign government obligations. At June 30, 2010, the System held U.S. Treasury bonds of \$2,673,778,920 and international government bonds of \$195,899,890.
- Obligations unconditionally guaranteed by agencies of the U.S. Government. At June 30, 2010, the System held agency bonds of \$244,955,380.
- Corporate bonds with at least an "A" rating by a national rating agency. At June 30, 2010, the System held U.S. corporate bonds of \$1,302,714,400 and international corporate bonds of \$88,326,750.
- Private placements are authorized under the same general restrictions applicable to corporate bonds.

Mortgage investments are authorized to the extent that they are secured by first mortgages on improved real property located in the state of Georgia.

Equity securities are also authorized (in statutes) for investment as a complement to the System's fixed-income portfolio and as a long-term inflation hedge. By statute, no more than 65% of the total invested assets on a historical cost basis may be placed in equities. Equity holdings in any one corporation may not exceed 5% of the outstanding equity of the issuing corporation. The equity portfolio is managed by the Division of Investment Services (the Division), in conjunction with independent advisors. Buy/sell decisions are based on securities meeting rating criteria established by the Board of Trustees, in-house research considering such things as yield, growth, and sales statistics, and analysis of independent market research. Equity trades are approved and executed by the Division's staff. Common stocks eligible for investment are approved by the Investment Committee of the Board of Trustees before being placed on an approved list. The System held common stocks totaling \$7,870,483,513 at June 30, 2010.

The State of Georgia Employee's Deferred Compensation Group Trust (Master Trust) invests in various mutual funds, common collective trust funds, and separate accounts, as selected by participants. Each participant is allowed to select and invest contributions into 3 mutual funds, 7 common collective trust funds, and 4 separate accounts, as authorized by the Board of Trustees. Mutual funds, common collective trust funds, and separate accounts are reported at the fair value of participant balances.

Substantially all of the investments of ERS, PSERS, LRS, SCJRF, GJRS, GMPF, and SEAD are pooled into one common investment fund. Units in the pooled common investment fund are allocated to the respective plans, based upon the cost of assets contributed, and additional units are

allocated to the participating plans, based on the market value of the pooled common investment fund at the date of contribution. Net income of the pooled common investment fund is allocated monthly to the participating plans, based upon the number of units outstanding during the month.

The units and fair value of each plan's equity in the pooled common investment fund at June 30, 2010 were as follows (dollars in thousands):

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations to the Employees' Retirement System. State law limits investments to investment grade securities.

Notes to Financial Statements
June 30, 2010

It is the System's investment policy to require that the bond portfolio be of high quality and chosen with respect to maturity ranges, coupon levels, refunding characteristics and marketability. The System's policy is to require that new purchases of bonds be restricted to high grade bonds rated no lower than "A" by any nationally recognized statistical rating organization. The quality ratings of investments in fixed income securities as described by Standard & Poor's and by Moody's Investors Service, which are nationally recognized statistical rating organizations, at June 30, 2010 is shown in the following chart.

Quality Ratings of Fixed Income Investments Held at June 30, 2010

Investment type	Standard & Poor's/Moody's quality rating	June 30, 2010 fair value
Domestic obligations:		2 (72 772 000

Total Governments		195,899,890
Corporates	AA/Aaa	88,326,750
Total fixed income investments	\$	4,505,675,340

The investment policy requires that repurchase agreements be limited to the purchase of U.S. Treasury or Agency obligations or corporate bonds rated no lower than "A" by any nationally recognized statistical rating organization with a market value in excess of funds advanced. As of June 30, 2010, the System held repurchase agreements of \$377,116,000.

Mutual funds, common collective trust funds, and separate accounts investments of the deferred compensation plans are not considered to have credit risk and do not require disclosure of credit risk rating.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss that may be attributed to the magnitude of a government's investment in a single issue. On June 30, 2010, the System did not

Notes to Financial Statements
June 30, 2010

have debt or equity investments in any one organization, other than those issued or guaranteed by the U. S. Government or its agencies, which represented greater than 5% of plan net assets.

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. While the System has no formal interest rate risk policy, active management of the bond portfolio incorporates interest rate risk to generate improved returns. This risk is managed within the portfolio using the effective duration method. This method is widely used in the management of fixed income portfolios and quantifies to a much greater degree the sensitivity to interest rate changes when analyzing a bond portfolio with call options, prepayment provisions, and any other cash flows. Effective duration makes assumptions regarding the most likely timing and amounts of variable cash flows and is best utilized to gauge the effect of a change in interest rates on the fair value of a portfolio. It is believed that the reporting of effective duration found in the table below quantifies to the fullest extent possible the interest rate risk of the System's fixed income assets.

Effective Duration of Fixed Income Assets and Repurchase Agreements by Security Type

Fixed income and repurchase agreements security type	<u> </u>	Market value June 30, 2010	Percent of all fixed income assets and repurchase agreements	Effective duration (years)

^{*} Total effective duration (years) does not include repurchase agreements.

Mutual funds, common collective trust funds, and separate investments of the deferred compensation plans are not considered to have interest rate risk and do not require disclosure of interest rate risk.

(5) Investments Lending Program

State statutes and Board of Trustees policies permit the System to lend its securities to broker-dealers with a simultaneous agreement to return the collateral for the same securities in the future. The System is presently involved in a securities lending program with major brokerage firms. The System lends equity and fixed income securities for varying terms and receives a fee based on the loaned securities' value.

(Including All Plans and Funds Administered by the Employees' Retirement System of Georgia) (A Component Unit of the State of Georgia)

Notes to Financial Statements
June 30, 2010

During a loan, the System continues to receive dividends and interest as the owner of the loaned securities. The brokerage firms pledge collateral securities consisting of U.S. Government and agency securities, mortgage-backed securities issued by a U.S. Government agency, and corporate bonds. The collateral value must be equal to at least 102% to 115% of the loaned securities' value, depending on the type of collateral security.

Securities loaned totaled \$3,537,760,045 at fair value at June 30, 2010. The collateral value was equal to 105.7% of the loaned securities' value at June 30, 2010. The System's lending collateral was held in the System's name by the tri-party custodian.

Loaned securities are included in the accompanying combined statement of net assets since the System maintains ownership. The related collateral securities are not recorded as assets on the System's combined statements of net assets, and a corresponding liability is not recorded, since the System is deemed not to have the ability to pledge or trade the collateral securities. The System is deemed not to have the ability to pledge or sell the collateral securities, since the System's lending contracts do not address whether the lender can pledge or sell the collateral securities without a borrower default, the System has not previously demonstrated that ability, and there are no indications of the System's ability to pledge or sell the collateral securities.

(6) Operating Leases

The System leases copier machines and mailing equipment under long-term, noncancelable operating lease agreements. The leases expire at various dates through 2013 and provide for renewal options ranging from one year to five years. Lease expense totaled \$22,228 during 2010. The following is a schedule by years of future minimum rental payments required under operating leases in excess of one year as of June 30, 2010.

During fiscal year 2010, the System did not experience any capital asset impairment loss with respect to the provisions of GASB Statement No. 42, Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries.

(8) Commitments and Contingencies

Employees' Retirement System of Georgia

In January 2007, multiple retirees filed a civil action in Fulton County Superior Court against the Employees' Retirement System of Georgia (ERS) seeking additional benefits retroactive to the time of their retirement dates for a class of those retirees who elected survivorship options and who retired during the preceding twenty-year period. Plaintiffs alleged that ERS did not use updated mortality tables in the calculation of their benefits. These claims were identical to those brought against the Teachers Retirement System of Georgia (TRS) under class action, by the same attorneys, in 2004. On February 19, 2009, the Court of Appeals issued a final ruling against TRS in favor of the plaintiffs and also denied the parties' motions for reconsideration. Because of this final decision against TRS, ERS has conceded liability on the breach of contract claim.

(A Component Unit of the State of Georgia)

Notes to Financial Statements
June 30, 2010

At June 30, 2009 management estimated a liability of approximately \$43 million based on the final judgment and estimated final payments. At June 30, 2010, there is no remaining liability related to this action.

The System is subject to legal actions in the ordinary course of its business. In the opinion of management, the System has adequate legal defenses with respect to such actions and their final outcome will not have a material adverse effect upon the financial status of the System.

Public School Employees Retirement System

On August 7, 2008, multiple retirees filed a civil action in Fulton County Superior Court against Public School Employees Retirement (PSERS) seeking additional benefits retroactive to the time of their retirement dates for a class of those retirees who elected survivorship options and who retired during the preceding twenty-year period. The case asserts the same claims as were asserted against the TRS and ERS above. Because of the final decision against TRS, PSERS has conceded liability on the breach of contract claim.

At June 30, 2009, management estimated a liability of approximately \$856,000 related to retroactive benefits and related attorneys' fees. At June 30, 2010 there is no remaining liability related to this action.

(9) Funded Status and Funding Progress

The funded status of each plan as of June 30, 2009, the most recent actuarial valuation date, is as follows (dollar amounts in thousands):

	Actuarial value of plan assets	Actuarial accrued liability (AAL) entry age (b)	Unfunded AAL/ (funding excess) (b-a)	Funding ratio (a/b)	Annual covered payroll (c)	Unfunded AAL/(funding excess) as percentage of covered payroll [(b-a)/c]

Notes to Required Supplementary Schedules

June 30, 2010

(1) Schedule of Funding Progress

The actuarial value of assets recognizes a portion of the difference between the fair value of assets and the expected actuarial value of assets, based on the assumed valuation rate of return. The amount recognized each year is 1/7th of the difference between fair value and expected actuarial value.

(2) Schedule of Employer Contributions

The required employer contributions and percent of those contributions actually made are presented in the schedule.

(3) Actuarial Assumptions

The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated. Additional information from the actuarial valuations for the most recent two-year period is as follows:
